AURAS - 7

PRINCIPAL'S COMMUNIQUE

“ALL OF THE TOP ACHIEVERS I KNOW ARE LIFE-LONG LEARNERS. LOOKING FOR NEW SKILLS, INSIGHTS, AND IDEAS. IF THEY'RE NOT LEARNING, THEY'RE NOT GROWING AND NOT MOVING TOWARD EXCELLENCE”

Educational Technology is the process of integrating technology into education in a positive manner that promote a more divers learning environment and a way for students to learn how to use technology as well as their common assignments. A teacher might use the technology to maintain student records, provide whole - group instruction or ask students to complete independent work. Class room technology includes interactive white boards, tablets, laptops and the internet. Both teachers and students access the technology throughout the day. Students can collaborate on group projects using technology- based tools such as wikis and google docs. The walls of the class rooms are no longer a barrier as technology enables new ways of learning, communicating and working collaboratively. Technology has also begun to change the roles of teachers and learners. Technology is becoming more prevalent in schools and paving the way for an updated educational system.

Learning is not attained by chance; it must be sought for with ardour and diligence

THE AIM OF EDUCATION IS TO MANIFEST IN OUR LIVES THE PERFECTION, WHICH IS THE VERY NATURE OF OUR INNER SELF

Celebrations

Every year on 5th November World Tsunami awareness Day is celebrated to raise awareness about Tsunami in developing countries in GRT College of Education. Tsunami awareness day was adhered 07/11/2022. This was done to bring awareness about the bitter experience caused, to gain major expertise in areas such as Tsunami early warning, public action and building act better after a disaster reduce feature impacts. This also stresses on the importance of early warning systems in order to mitigate damage from the devastating natural hazard. It also aims at reviving traditional knowledge about Tsunamis. The students planted 50 palm seeds in the banks of the pond adjacent to the college premises.

National Cancer awareness day was observed on 07/11/2022 to coincide with the birth anniversary of noble prize winning scientist Madame Curie. She is remembered for her discovery of radium and polonium and her huge contribution to the fight against cancer. From Adayar cancer institute mobile awareness van was invited to the campus and students were made to see the exhibits and get awareness about the dreadful disease. Researchers have identified hormonal, lifestyle and environmental factors that may increase the risk of breast cancer and the student teachers of GRT College of Education were given awareness about the precaution measures to be taken, identification, early treatment and to be mentally strong.

National Education day of India is celebrated on 11th November of every year since 2008 to celebrate the birth anniversary of Maulana Abul Kalam Azad, the first education minister of independent India. In GRT College of Education this year we celebrated it on 16/11/2022 with the theme "Changing Course, transforming education". Dr.P.Pacjaiyappen was the resource person of the day who spoke about the vital role in shaping the education system of India and emphasized on girl's education and free compulsory education for all the children under the age of 14. He also insisted about providing technical education along with vocational training to all the children.
